

QUICK LOOK AT THE PROJECT

Partner :

N Degree Ice , visually styled as N° Ice

Industry :

Food & Beverage

Target :

Scale to 3 locations across London within 5 years.

MEET THE BRAND

N° ICE is a top-shelf UK based ice cream brand , freshly scooped into the market with a physical shop.

Premium for two real reasons — what's inside the tub & what's inside the shop.

TARGET AT RISK

You can perfect the recipe. Lock in the location. Build the shop.

And still watch the target slip .

Scaling to multiple locations isn't the hard part.

Getting the first customer to choose you over the shop next door — that's where ***most brands quietly lose the game.***

Every ice cream brand runs on four links in a chain with this exact order:

Shop Experience — your exterior and interior. The difference between a stranger walking in or walking past without a second look.

Customer Service — what happens once they're inside. What makes them stay, return, or never come back.

Visual System — The brain of the chain, built on strategy rather than brainstorming pretty designs. Market knows it as the brand's first impression — the quiet layer that builds identity over time. Do it wrong, it's a silent killer for everything the brand is building. Do it right, it's a silent force that carries everything further.

Taste — The heart of the chain. Everything above wins the customer's attention. This wins their return.

Since our service lies in the brain of the chain — the Visual System

The one link that decides whether everything else the chain does gets remembered or gets forgotten. Here is what we put together for N° ICE.

THE VISUAL SYSTEM

This is how the Visual System is built for brands that dominate their industry.

Logo & it's physical branding

The N constructed as a waffle cone with a scoop for instant clarity on what the brand is & designed to work across every application it lives on (signage, uniforms, marketing materials etc)

Menu Format

The menu carries two parts — ***the Flavour Board*** and ***the Price Board***. Here is how both were put together across every format they appear in.

Flavour Board — Consists of three sections, each carrying a different number of flavours within it.

Price Board — Pricing structure designed cleanly for each section on the Flavour Board.

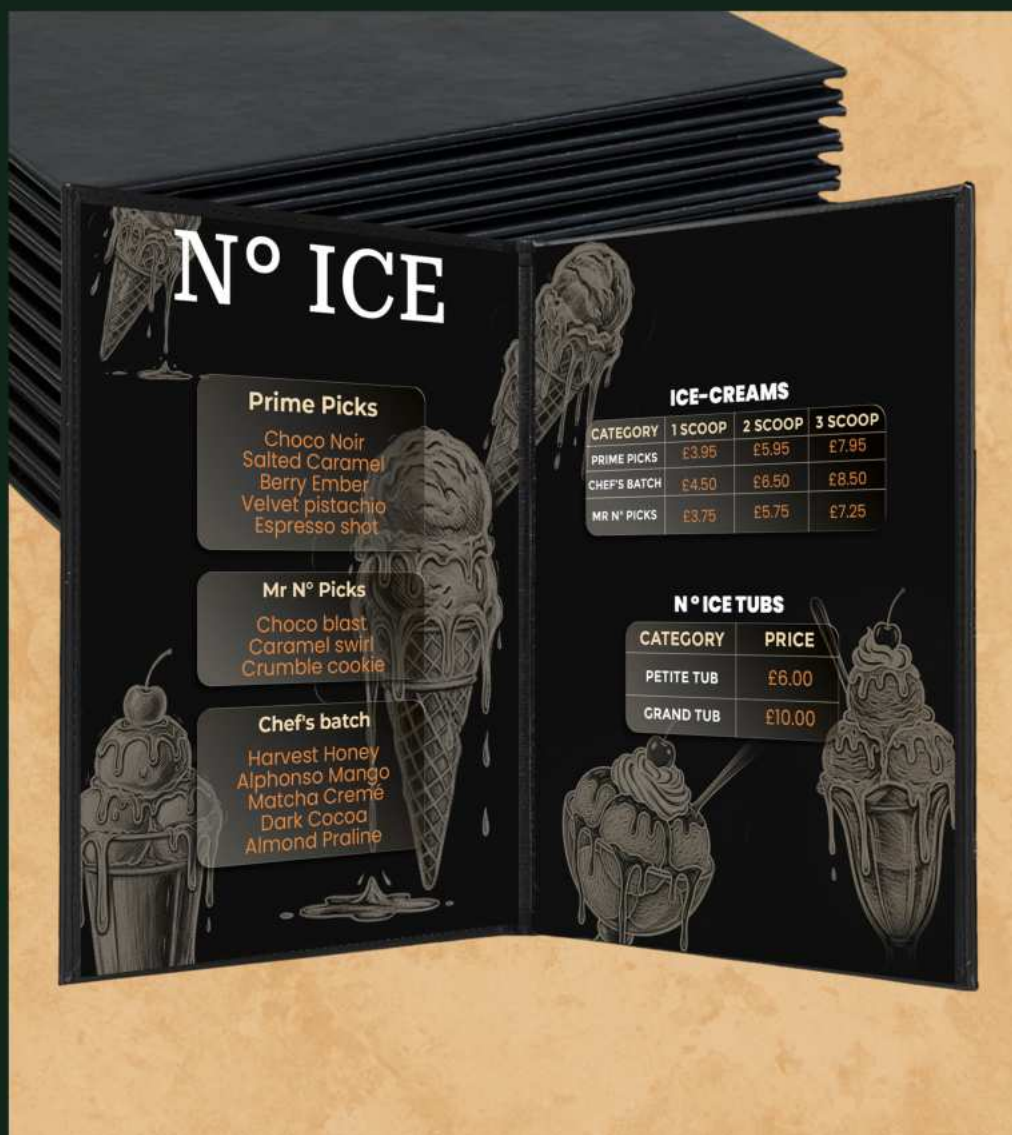

ICE-CREAMS			
CATEGORY	1 SCOOP	2 SCOOP	3 SCOOP
PRIME PICKS	£3.95	£5.95	£7.95
CHEF'S BATCH	£4.50	£6.50	£8.50

N° ICE TUBS	
CATEGORY	PRICE
PETITE TUB	£6.00
GRAND TUB	£10.00

In-store setup of price & flavor board

Packaging & Serve Design

Every design here is based on the Flavour Board — three sections, each carrying different flavours and its own serving format (dine-in, take-home). Each section's packaging designed to fit its own format regardless of container size (cup, tub or cones).

Prime Picks

The indulgent dine-in section of the Flavour Board containing 4 flavours, served in a branded cup.

Chef's Batch

The handcrafted section of the Flavour Board carrying 4 flavours served in a branded tub for take-home.

Mr N° Picks

The kids section of the Flavour Board packed with 3 vibrant flavours.
Lands with an illustrated branded cup & cone packaging .
